Grosperin Fins Bois 1975

This 1975 vintage Cognac is known for its floral and fruity eaux-de-vie, made using grapes from the Fins Bois region of Cognac. The Cognac house was founded by Jean Grosperin, who worked as a Cognac broker in the region evaluating the quality of the eaux-de-vie and introducing interested third parties to one another. The Cognac was stored in one of the ORECO warehouses, which provide optimum humidity for ageing due to its close proximity to the Charente River. The nose offers aromas of nuts, leather and nougat, while the palate provides flavours of vanilla and cedar with a long, rich finish.

Price: approx £190

Producer: Grosperin
